<b>Designer</b> Name:SolidSun Address:Příborská 602 738 01 Frýdek-Místek Telephone No.:+420606835161	<b>Customer information</b> Name: Email: Address:
---	--

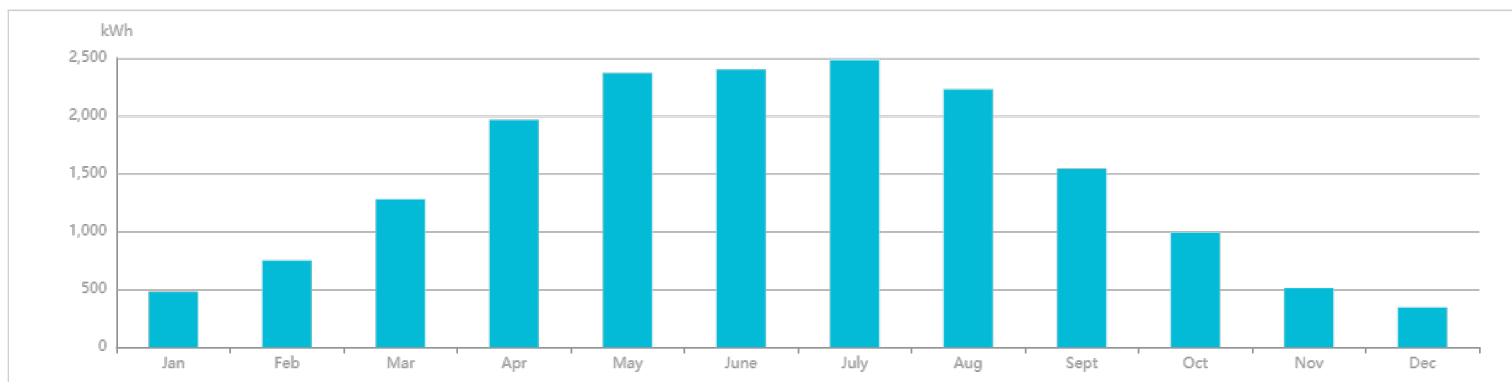

## Overview

Project name:project2
Location:Ostrava Nádražní 1078/4
Temperature information:Minimum :-20 Maximum :33 Average :20
PV array: pv array1(Quantity:36 Model:78M-HFD-450 Azimuth:340 Tilt:10)
Annual generation:17332.35 kWh
DC-to-AC Ratio:95.29 %

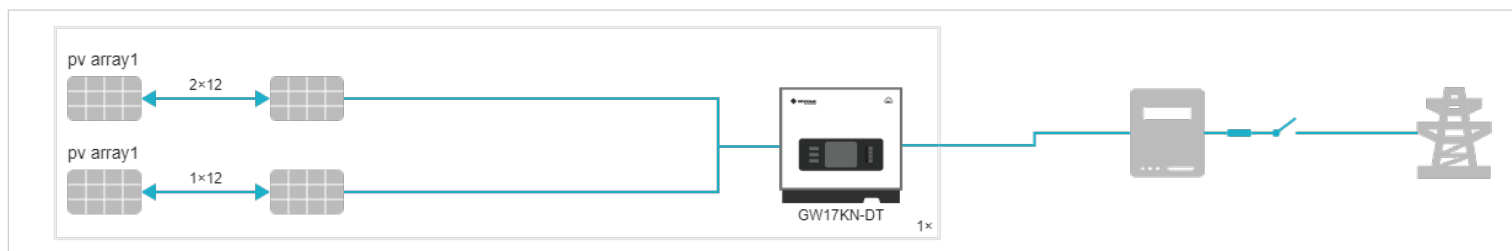

## Inverter

	Segment	Quantity of inverter	Quantity of PV module	Module area	Annual generation	Cable loss	DC-to-AC Ratio
	GW17KN-DT	1	36	78.16608	17332.35 kWh	0.78 %	95.29 %

## Generation estimate

## Sketch diagram

## Disclaimer

- The results have been calculated according to the algorithm from GoodWe Power Supply Technology Co., LTD.
- Actual generation of your PV plant may vary due to weather changes, efficiency of PV module and other factors.
- The simulation results are for reference only, GoodWe has the right of final interpretation.
